

# The SHRINK shelf

h

# Our shelving family

# has grown!

**Six playful and lighthearted siblings in vibrant colors are ready to take their place on your wall. Whether in the living room, kitchen or bathroom; whether for storing books, cosmetics, spices or as a display for your collectibles, SHRINK will bring your walls to life.**

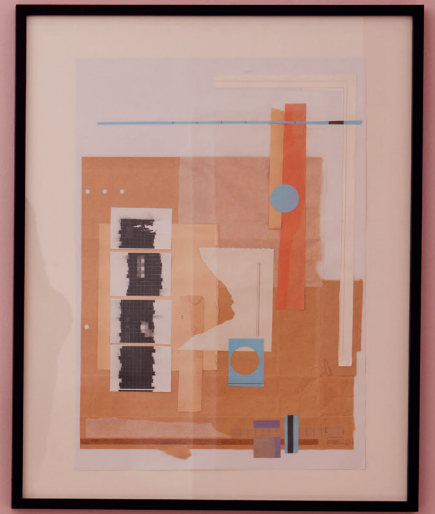

**The SHRINK shelf is a smaller version of our LINK shelving system but it is just as good as its big brother in terms of functionality. It also shares the same values: A timeless, adaptable design and materials of the highest quality.**

**lobster**

**This vivacious red seems  
to glow in the dark.**

**the lipstick**

**for your wall**

denim

**A vivid, vibrant blue,  
deep as the ocean.**

**for denim**

**lovers**

**forest**

**A deep, mystical green that  
that soothes your senses.**

**your plants will**

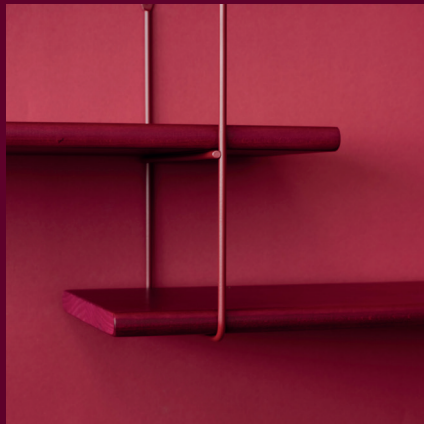

**love this shelf**

**berry**

**A sophisticated, elegant purple  
that brings glamour in your room.**

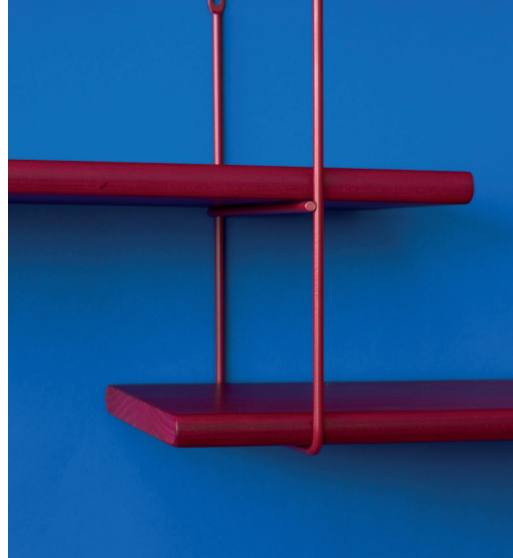

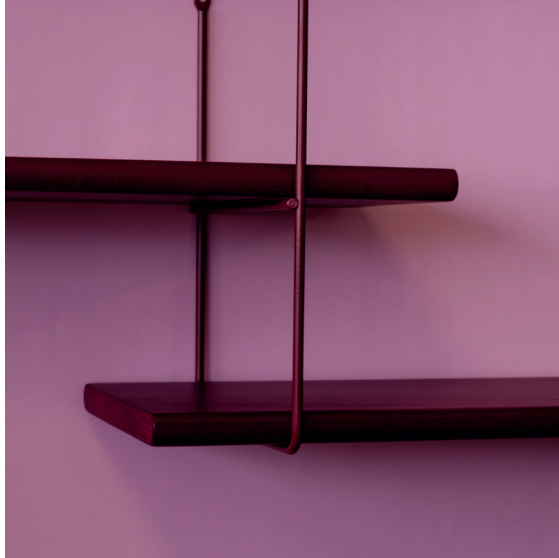

**your daily dose**

**of vitamin b(erry)**

curry

**This bright, cheerful yellow will spice  
up your home and your mood.**

**spicing it up**

**with curry**

**black**

**A striking statement – you can't go wrong with this bold favorite.**

timeless

sophistication

**The design and color are the first things to catch your eye, but don't miss these qualities of the SHRINK shelf. Underneath those brilliant colors, you can still see the wood grain of our high quality hardwood. That means the SHRINK combines playful beauty with hardwood's strength, durability, and sustainability.**

**Beech wood is a super strong hardwood that has long been used in the furniture industry. It is among the most common hardwoods in Central Europe and - guess what - it grows back! We only use wood from sustainable forests to ensure a healthy product cycle. The wood is treated with color stain and water-based lacquer, making it safe for even the littlest decorators**

**You can combine as many SHRINK shelves as you like to create your own composition. Each component fits with every other, allowing you to design combinations that suit your needs and aesthetics. The bold colors of the SHRINK shelving system turn your home into a showroom for your lifestyle and individuality.**

**Any wall can be a canvas for the SHRINK. Color is king. Add some sparkle to your home with these color splashes. The SHRINK comes in six distinctive colors. —▶**
