collection

Geometric and minimal, the Pipeline collection reflects the refined simplification of geometric shapes and colours translated into functional everyday objects.

The collection consists of 2 different wall shelves, a coffee table and 2 mirrors that add value and atmosphere to any room.

## Coffee Thing

# Coffee Thing

collection

Following George Sowden's successful 2022 launch with Danish creative platform raawii, the collaboration is now adding a new table design: Coffee Thing.

## PRODUCT INFO

### design

George Sowden, 2022

### product type

coffee table

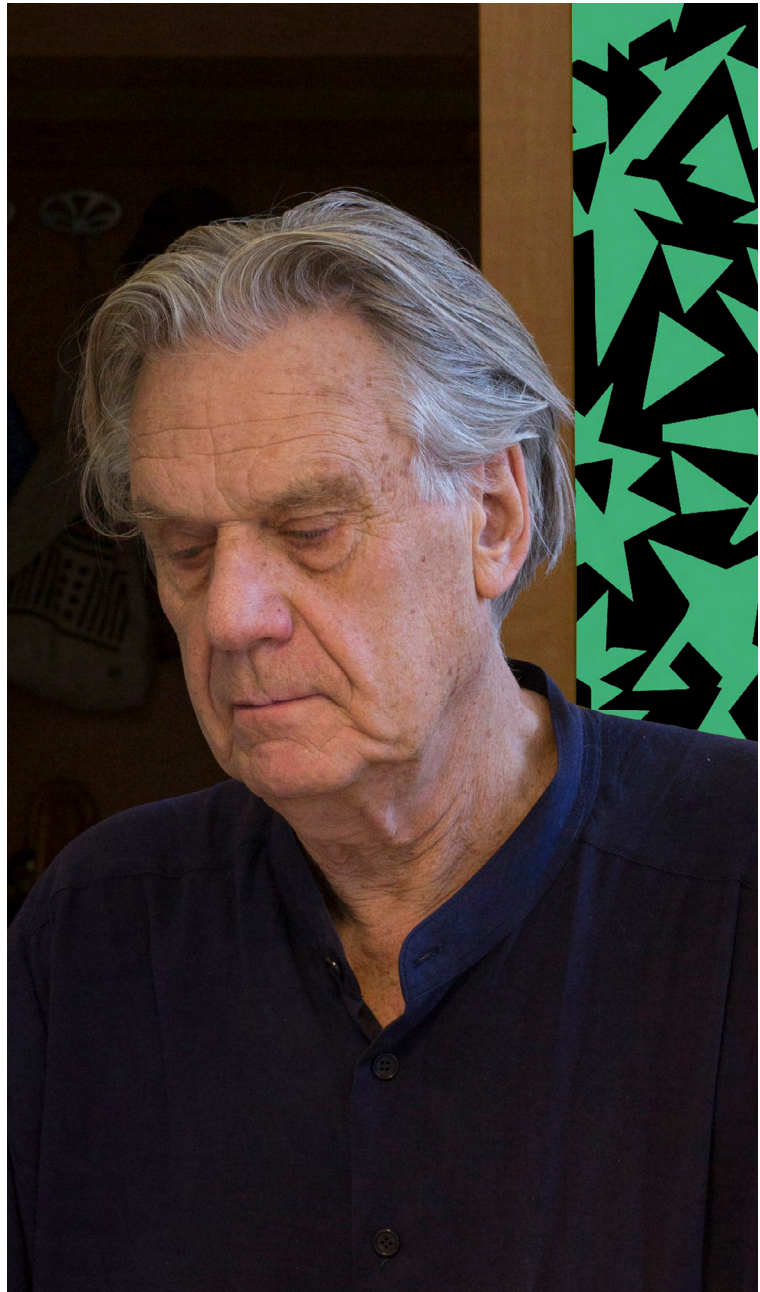

### materials

recycled aluminium, MDF, laminate

### care & assembly instructions

- wipe with a soft damp cloth
- product comes flat packed, thread assembly, screw & wrench included

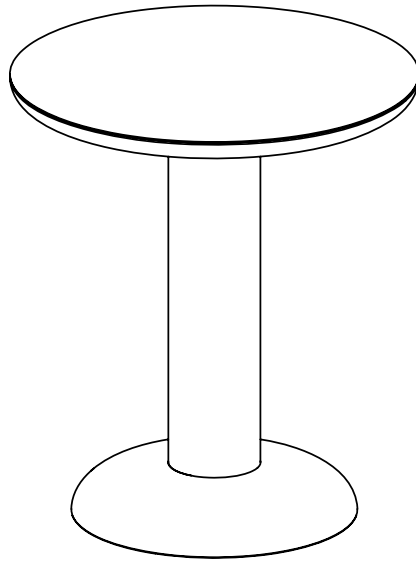

**note from the designer**

*"Thing is a multi-use object, a stool, a small table – whatever it finds use for. It is made of 100% recycled aluminium with the exception of the silicone feet. Once the various parts are bolted together it can be used both indoors and outdoors - and even be left in the rain."*

collection

The bench and the table are contemporary and eco-friendly furniture pieces made entirely of cork. With smooth lines and minimalist designs, they add a natural and earthy touch to any room.

The bench and the table works well together as nesting tables too. Both pieces are durable and practical, making them a great choice for sustainable design enthusiasts. The table can be positioned in two ways, offering a versatility of use.
